TEI ROCK DRILLS

MPH

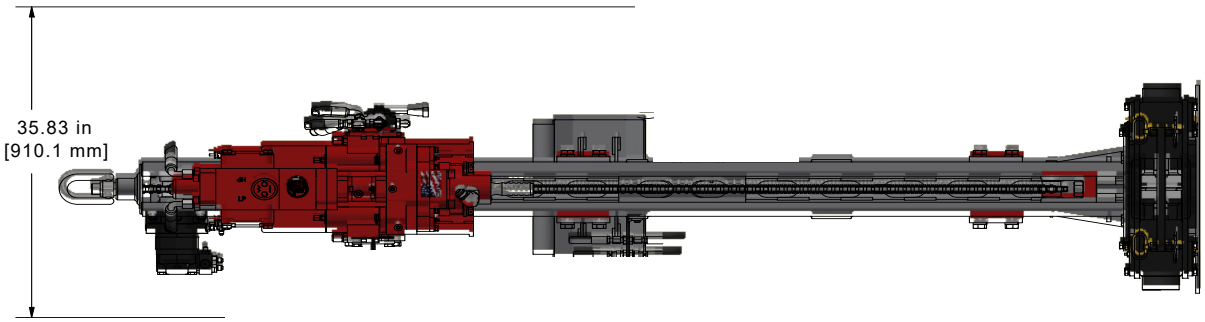

PORTABLE DRILLING SYSTEM

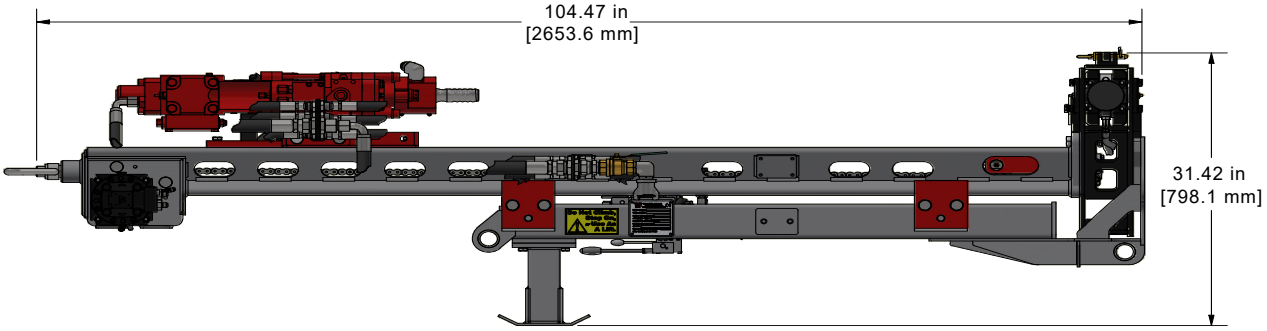

The MPH portable drilling system takes limited access drilling to a new level. The MPH found inspiration from the Man Portable (MP)system, combined with the newly designed SCF feed and the MPH was born.

The MPH falls between the MP and the PD drilling system and delivers a more robust feed than the MP, ACF feed and will allow the use of the "300" series of drill heads along with the "200" series drill heads making the MPH the most versatile portable drilling system on the market.

PORTABLE DRILLING SYSTEM

SPECIFICATIONS

	U.S.	Metric
PULL BACK FORCE	2500 lbf	11121 N
DRILL TRAVEL	6ft (SCF5)	2 M
WEIGHT	960 lbs	435 kg

QUALITY POLICY

CONTINUAL IMPROVEMENT OF CUSTOMER VALUE THROUGH INNOVATION, EFFICIENCY AND INTEGRITY
